## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 14 is objected to because of the following informalities: last line, before "it", --preceding-- should be inserted. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 2, 6, 7, 10-16, 20, 23-29, 33, 34, 37-45, and 48-50 are rejected under 35 U.S.C. 102(b) as being anticipated by Haskell et al (6,005,622) for the same reasons as set forth in Section 6 of the last office action, dated 9/15/04.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was

Art Unit: 2613

not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 3, 8, 17, 21, 30, 35, and 46 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haskell et al in view of Lee (5,452,104) for the same reasons as set forth in Section 9 of the last office action, dated 9/15/04.

5. Claims 4, 5, 9, 18, 19, 22, 31, 32, 36, and 47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haskell et al for the same reasons as set forth in Section 10 of the last office action, dated 9/15/04.

#### ***Response to Arguments***

6. Applicant's arguments filed 3/15/05 have been fully considered but they are not persuasive. In response to applicant's argument on pages 13 and 14 of the Remarks that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., determining the difference of both AC and DC elements of anchor frame and both AC and DC elements of the subsequent frame) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). Furthermore, even though the limitations are read into the claims, element 310 of Haskell et al already illustrate the concept of such difference of DC elements.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
